The Manchester is the height of sophistication. No compromises were made with this stove; from the intricate embossed pattern on the stove sides to the robust, cast iron construction and the advanced, double combustion technology. The traditional aesthetic design looks elegant in matt black and would radiate finesse in any situation.

This stove is now Ecodesign ready, and adheres to all of the current specifications for the new Clear Air legislation coming into effect in 2022.

The beautifully crafted front door offers a fantastic view of the fire. This combined with the 12.6kW heat output means that the Manchester warming presence will be felt throughout large rooms. Completed with a convenient side loading door and rear heat shield, this stove is a versatile addition to any home.
