

Nestor Martin Stanford 23 Multifuel Stove

<https://www.calonyradref.co.uk/nestor-martin-stanford-23-multifuel-stove>

The Stanford range of multifuel stoves represent a giant leap forward in combustion technology. With the minimum of supervision they burn more efficiently making them as environmentally friendly as possible.

This is the result of working to achieve the most attractive and natural flame patterns possible, from the most natural of fuels available. The Stanford 23 is suitable to burn both seasoned wood and smokeless coal. With a heat output of 7.7kW the Stanford 23 will heat an average room even on the coldest days. All of this is possible due to the latest combustion technology packed neatly inside each and every Stanford stove, achieved without spoiling its overall sleek, modern look.

Design Features

- Plexus Air Control
- Double Glazed glass
- ZR Combustion Technology
- Designed for Overnight burning
- Rear heat shield
- Convection system
- Top or rear flue

- Air Wash

Pictured with Nickle Handle, the Stanford 23 comes with the option to have a black handle with matching hinge pins.
