Made here in the UK, the Blithfield 5 Compact has been designed directly in response to feedback from customers for a stove suitable for smaller spaces.

While the Compact 5kW might be the Blithfield's little sister so-to-speak, she packs no less of a punch! While the dimensions have been trimmed, nothing has been compromised when it comes to performance. No wonder it's an award winner!

When fitted with the optional heat shield the rear distance to combustibles is as low as 200mm
