Indulge in the good things in life with the 10kW Clock DS tunnel multifuel stove.

With doors on both sides for viewing and refuelling from either side of the stove, this, at the time of writing is believed to be the only double-sided stove currently on the market that is fully Eco-design 2022 compliant.

Investing in this modern classic not only gives your home a show-stopping centre piece, it's future-proofed too.
