

Westfire Uniq 44 Ecodesign Wood Burning Stove

<https://www.calonyradref.co.uk/westfire-uniq-44-ecodesign-wood-stove>

This contemporary wood burning stove is the new and improved Ecodesign version of the Uniq 17.

The Uniq 44's sophisticated airwash system helps keep the panoramic glass clear and the air vents at the top ensure it distributes heat more evenly and a handle that stays cool to touch, making it perfect for open plan living.

As one of the most popular stoves in the Westfire range, the Westfire Uniq 44 woodburning stove also has an impressively large glass area for a 5kW stove. This glass area coupled with its easy to use air control system and high-efficiency figures makes this an ideal choice for your home.

Its compact size makes it ideal for smaller rooms, and the contemporary Danish styling adds a handsome feature to any interior.
