

Westfire Uniq 32 Glass-Fronted Wide Inset Ecodesign Wood Stove

<https://www.calonyradref.co.uk/westfire-uniq-32-wide-glass-inset-ecodesign-wood-stove>

The wide frame creates a statement in itself; but when coupled with the glass front it creates a purely sensational centrepiece.

The Westfire Uniq 32 ECO-DESIGN provides a sophisticated, space-saving solution to heating your home. The Glass Fronted model increases this stoves presence and emphasizes the large fire chamber. This wood burners insulated fire chamber reflects heat into the room, whilst its easy to use air controls allow for a more complete, cleaner burn; these features maximise the energy you get out of every log. Providing an impressive 5.9kW of heat, the Uniq 32 is more than capable of warming large rooms. These technical features are complemented with a large glass window that allows for a full view of the fire and helps to create a cosy, warming ambience.

The Uniq 32 comes with a choice of frame to suit your taste and provide a clean, crisp edge to each stove. Finished in a metallic, anthracite paint, these frames really highlight the fires presence. The ability for these stoves slot into a suitable wall offers more flexibility with installation, as well as freeing up floor space. This stove now comes with a closed combustion adapter as standard, which allows external air to feed directly to the fire, improving the burn. The Uniq 32 wood burning stove projects a window of flickering flames that won't fail to draw

an audience.
