

ACR Malvern II LS Slim Traditional Multifuel Stove on Log Store

<https://www.calonyradref.co.uk/acr-malvern-ii-ls-slim-multifuel-stove-on-log-store>

The Malvern II LS has all the features of the standard [Malvern II multifuel stove](#), but with the addition of a convenient integral log storage area under the stove.

This 5Kw model has a powerful airwash to help keep the large glass door clean to offer superb views of the flames. Being DEFRA exempt, you can be confident about burning logs in a smoke controlled area. The Malvern II LS is a multifuel stove enabling you to burn logs and smokeless fuels.

The Malvern II LS is supplied as standard with a brushed steel door handle (a matt black handle is available as an optional extra if this is your preference)

The Malvern II LS is also SIA EcoDesign Ready approved meaning that it meets with the EcoDesign criteria which will become mandatory in 2022 already. This makes the Malvern II LS one of the most environmentally friendly stoves available with low CO & particle emissions and high efficiency.

The Malvern II LS is supplied with an adjustable log guard for either wood or solid fuel.

Finished in traditional matt black paint, this stove is easy to maintain.
