The Di Lusso range brings flexibility to your fingertips, especially with the multifuel kit added to this stove making it suitable for burning approved solid fuels.

Each of these stoves offer you complete control over your room temperature, something many other fires are unable to provide.

The Di Lusso Eco R4 may be the smallest, most compact stove in the range, but it still packs a powerful punch. The R4 is ideal for smaller rooms, able to fit comfortably into a standard 16" fireplace.

*Frame pack priced separately
