

Chesneys Shoreditch 5WS MK3 Wood Burning Stove

<https://www.calonyradref.co.uk/chesneys-shoreditch-5ws-wood-burning-stove>

With all the improvements the MK3 series brings to the Shoreditch range of wood burning stoves by Chesneys, this is the 5WS Mk3 - just as beautiful as before, but with a lot more to offer on the technical front.

Not only does the 5WS now have an impressive **heat output range of 3.5kW up to an impressive 7kW** (nominally rated at 4.9kW), but this comes with an incredible **efficiency rating of over 86%**!

With this, comes full EcoDesign compliance (the stove actually exceeds these requirements by a good margin), as well as DEFRA approval for use in smoke control zones all over the UK - and once again, the stove doesn't even come close to the upper limits for DEFRA approval; in fact it **produces just one tenth of the permitted emissions under DEFRA**, so with this stove you know you're getting a clean burn!

For some perspective on this redevelopment; the stove weight has gone from around 95kg up to 135kg! This is testament to the additional design and development gone into this new version, and without any added cost burden to you!
