Weighing in at 157kg, the Shoreditch 8 Series 6kW wood burning stove not only looks magnificent but provides a nice level heat output for a good sized space. For larger rooms or more open spaces demanding more output, take a look at the 8kW model which packs a bit more of a punch if you need it!

With its modern linear design this stove will sit comfortably in a wide range of modern interiors. Installed either as a free-standing unit or within a fire chamber, the Shoreditch provides an attractive and heat efficient focal point to a room.

Both the 6kW and 8kW models are DEFRA exempt for use in smoke control areas and also exceed eco-design 2022 requirements.
