

Dean Forge Dartmoor Baker Plus W5 Wide Eco Cook Oven Stove

<https://www.calonyradref.co.uk/dean-forge-dartmoor-baker-plus-w5-wide-eco-cook-oven-stove>

The Dartmoor Baker Plus W5 Eco 5kw cook stove (based on the successful Dartmoor Stove Range) has an integral oven above the fire box utilising the heat from the fire to cook, bake or warm delicious food.

The new Baker Plus W5 Eco, is Eco 2022 compliant (Ecodesign) raises the height of the Dartmoor Baker Stove creating easier access to the oven.

The Dartmoor Baker Plus W5 Eco has oven vents that allow the cooking smells and condensation to be drawn out of the oven and up the chimney. If you would like to use the top of the stove to warm a pan or boil a kettle then the use of the back flue outlet is recommended when installing the stove. Using the rear flue outlet will create a clear area, providing extra space and access to the hotter part of the top plate (near the back), a special Dartmoor Baker back adaptor with flue cleaning access can be purchased to achieve this.

All the Dartmoor Bakers Plus W5 Eco's have a removable cleaning plate located inside the oven. This door provides a cleaning access to the top of the oven or for sweeping the chimney when fitted with a top exit flue.

The Dartmoor Baker Plus W5 Eco distance to combustibles is only 50mm to the rear when

fitted with a rear double heat shield and twin wall flue.
