

Dean Forge Croft Clearburn Small 8KW Eco Wood Burning Stove

<https://www.calonyradref.co.uk/dean-forge-croft-clearburn-small-8-eco-wood-burning-stove>

This modestly sized wood burning stove is mighty in its performance and kicks out an impressive 8kW nominal heat output!

The Croft Small Eco Small 8kw wood burning stove has an exceptional pre-heated Airwash system for a clearer view of the fire. The Clearburn Small Eco wood burning stove is designed on simple clean-cut lines with the advantage of a flat heating area on top and would grace any home, old or new.

As with all our Clearburn Eco stoves, the substantial double glazed glass door panel and exceptional pre-heat Airwash system provide a stove that is more environmentally friendly, burning more of the smoke gases. The Croft Small Eco is approved for use in smoke control areas.
