

Slate Oil for Slate Hearths - 100ml

<https://www.calonyradref.co.uk/slate-hearth-oil-seal-protect>

Slate is among the most popular materials used for fireplace hearths, and as such we have the perfect purpose-made solution for polishing and protecting your slate.

Slate oil rejuvenates the finish of your slate hearth, whilst providing a protective barrier which actively helps to repel dirt and water, making cleaning easier and helps prevent marks caused by debris from the fire.

We use slate oil frequently when installing slate hearths and when carrying out our maintenance servicing packages for our local customers.
