

Stove Glass Cleaner Spray - New Larger 650ml Bottle

<https://www.calonyradref.co.uk/vitcas-stove-glass-cleaner-spray>

This purpose-made stove glass cleaner is formulated to quickly and efficiently remove soot, grease, tar and burnt on marks on your stove doors' glass.

Whilst its direct purpose is for stove glass, it can of course also be used to clean the glass of your oven door, and equally some choose to use it on barbeques and similar, for its de-greasing properties and ability to help lift tar and other unpleasanties left behind from combustion.

With a well designed bottle which is easy to grip and hold, and of course the on/off isolating nozzle to prevent unwanted spray-off, this is a really easy to use product which simply does what it says on the tin, so to speak!
