Ideal for the modern home, the iLektro 1250 Landscape is the perfect match for a 52" television, making it the ideal addition to any living room. Plus, with low energy usage and an LED flame, it's an eco-friendly and energy-efficient option.

There are two log selections asplit log effect or driftwood style . This allows you to choose the log design that best suits your decor and personal preference. The atmosphere chamber enhances the visual effects and creates a more immersive experience. One of its notable features is a non reflective dark back , which adds to the overall aesthetic and eliminates any distracting reflections.

This stylish fireplace is more than just a source of heat; it also creates a soothing, crackling log sound for an authentic fireplace experience. With a 1-2 kW thermostatic program and a 7-day timer, the iLektro 1250 Landscape is customizable to meet your unique needs.
