

# Parkray Aspect 4 Eco Double-Sided Wood Burning Stove

<https://www.calonyradref.co.uk/hunter-parkray-aspect-4-ds-double-sided-wood-burning-stove>

Capable of delivering a heat output between 4 and 7kW, it efficiently heats two rooms at the same time - and of course, gives the unchallenged ambiance of beautiful flame patterns to both rooms too!

Elevate the atmosphere of your home with the Parkray Aspect 4 Double Sided wood burning stove. This exquisite model offers a dual-viewing experience with large windows on both sides, allowing the enchanting flames to be seen from multiple angles, enhancing the warmth and charm of any space. Its 5 kW nominal output ensures effective heating without the need for additional ventilation in most homes.

The innovative airwash system maintains clear glass for uninterrupted flame viewing from both sides, while the straightforward 5-inch flue installation and compatibility with a 12mm hearth make it practical for various settings.

Designed with a blend of robust steel and a refined cast door, the stove's sleek and understated style fits seamlessly into any interior. It boasts an impressive 76% efficiency and an A energy rating, making it a superior choice for environmentally conscious heating that also

reduces energy expenses.

With **two log store plinth heights available**, a short 105mm option and a taller 225mm version, the Aspect 4 DS can now sit at three different heights depending on your setup - just choose the log store (or none) that suits you!

Supported by a **10-year guarantee**, the Parkray Aspect 4 Double Sided wood burner is built for lasting performance and aesthetic appeal.

With **EcoDesign & DEFRA approval**, it meets stringent environmental standards.
