

Chesneys Salisbury 8WS MK3 Wood Burning Stove

<https://www.calonyradref.co.uk/chesneys-salisbury-8ws-mk3-wood-burning-stove>

The new MK3 model of the Salisbury 8WS from Chesneys comes as standard with a wide range of heat output, from 4kW to 9.5kW (nominal 7.4kW) - and this is no 'on-paper' technicality, it really does control that well!

The reliability and efficiency of the Salisbury 8WS stove is reflected in its robust and uncluttered appearance - and with the advancements of the MK3 revision, you get a stove with readings of 83.2% efficiency and smoke emissions of just 1.7g/hr!

The range of Salisbury stoves are very much in the style of the classic yet elegant traditional wood burning stoves, with a certain cleanliness to the design which is more indicative of a modern stove. All in all a beautiful blend of aesthetics and functionality.

As with all stoves in Chesneys' collection, it has a solid cast iron door housing a large glass window that allows the fire to be enjoyed in all its warmth and beauty.

The stove is **DEFRA exempt for use in smoke control areas** and also **exceeds eco-design 2022 requirements**.
