

DRU Passo Modern Cylindrical Gas Stove with Smart Control

<https://www.calonyradref.co.uk/dru-passo-modern-cylindrical-smart-control-gas-stove>

This contemporary free-standing gas fire catches the eye thanks to its large round glass window. The flame patterns can be regulated by means of the integrated Eco Wave technology. The glowing effect at the bottom of the gas fire and high-stacked logs create a beautiful fire. The gas fire can be operated with a remote control or through your smartphone or tablet.

With an all-new control system introducing modern innovative technologies, **the Passo can be controlled via a smart app**, welcoming a whole new level of convenience and variability, saving you time, energy and money!

From both the remote control and the app, depending on which you prefer, you can **fully control the heat output and visual appearance** of the fire; particularly with the new **EcoWave** feature, creating diverse flame patterns whilst saving you up to 50% on your gas consumption.

Read all about the new DRU Eco Wave system here: <https://www.drufire.com/en-gb/about-dru/innovations/eco-wave>

Available only for mains **Natural Gas**, the Passo gas stove is a truly beautiful modern design, and whilst it certainly ticks the boxes of the more minimalist contemporary design, it still creates a bold statement and a stunning focal point for any room.

Standing proudly at over a metre tall, this freestanding gas fire gives a beautiful view of the flames through a 180 degree curved rotating glass door.

This stove is designed to use a balanced flue system 100/150 (100mm internal, 150mm external) which can be supplied by DRU to your specification on request - please [contact us](#) if you require this.
