

Chesneys Sanctuary 5WS/LS Wood Burning Stove on Log Store

<https://www.calonyradref.co.uk/chesneys-sanctuary-5ws-ls-minimalist-logstore-wood-stove>

Elevated on an generous and appropriately sleek log store, the sleek minimalist beauty of the Sanctuary wood stove is emphasised by the absence of a handle on the door. Instead, a smooth rolling catch mechanism is used, allowing you to effortlessly pull the door open and simply push it back closed when you're done, with no need for a handle at all - allowing for a beautiful look of symmetry.

It has a curvaceous door, large viewing window and comes with a choice of steel or brass door furniture.

Named The Sanctuary, this stove is there for those quiet moments when you want to shut out the world and enjoy some peace, tranquillity, and warmth.

It is shown here with brass air controls and trim. Steel finish is also available as an option for the controls and trim, whilst the stove itself is also available in a range of finishes for you to choose from.

Chesney's Sanctuary 5WS-LS wood burning stove is **DEFRA exempt** for use in smoke control areas which means it can be **safely and legally** used in all major towns and cities throughout the UK. It produces minimal emissions that are one tenth of the level that a comparable

DEFRA exempt stove is permitted to produce and has an **efficiency rating of 86.4%**.

Please note the rear DTC is 200mm or 100mm when using insulated flue.
