High efficiency, beautiful 3-sided view of the flames and easy operation via a unique air slider or even the new app control feature via DG Smart Assist.

The Vidar Triple fireplaces offer many advantages and are very easy to use. The fireplace also offers the option of an outside air connection, making it perfect for well-insulated homes.

The smallest of the three sizes in the Vidar range, this stove sits well in smaller to midsized rooms - for larger spaces we recommend considering the Vidar Medium or Large!

Optional external air feed kit available.
