

Dik Geurts Ivar 8 Low Freestanding Wood & Multifuel Stove

<https://www.calonyradref.co.uk/dik-geurts-ivar-8-low-freestanding-wood-fire-multifuel-stove>

Ivar 8, Low is a versatile stove with external air connection that can burn wood, and when the Multifuel kit is added, coke or coal. It has a large viewing window and can be freestanding or installed into an inglenook chimney opening. With a heat output of 10 kW, it can easily heat a large room, but its low emissions qualify it for DEFRA approval in smokeless zones.

Optional multifuel kit available. Please note this will increase the Side DTC to 600 (450mm on wood-only).

Optional external air feed kit available.
